

# Choice

Shopping for farm products has never been easier.

47FARMS provides buyers a rich array of supplier choices when searching not just for fresh and local, but also for desired growing practices and nutritional values consumers want.

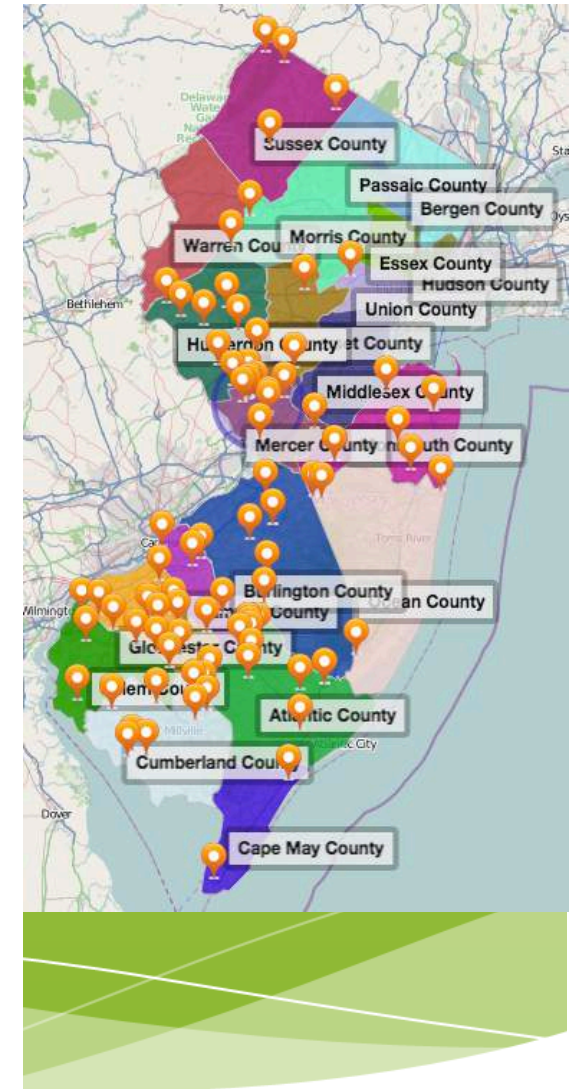

# Food Safety

Now more than ever consumers, regulators and Agri-Businesses need healthier food systems enabled through proactive tracking, tracing & identification of all food sources.

# PROXIMITY

When purchasing through 47FARMS, Buyers have a choice in supporting their local farmers, every product at a time.

# 47FARMS

Smart Foodhubs

47FARMS enables commerce between farmers, institutional buyers and consumers. It is a network of virtual foodhubs that start with 7 or more farms in a 40 mile radius. It is designed on the premise that the future of shopping for farm inventory requires a close connection between the consumer and the source of their food.
